

Help studies, science & health

EMODnet GUIDE

EMODnet is a **European program** that has been running for 10 years (www.emodnet.eu). It is developed through several vertical projects: bathymetry, biology, chemistry, geology, human activities, seabed habitats and **physics**.

How to send data:

Click [here](#)

Submit your **data files**

Answer the **questions**

*This information is crucial because **data is the language** we have to understand nature, and all the climate projections we base our **future actions** and **legislations on**, are modelled on those data.*

Aim

Reduce the fragmentation of data, harmonize it and make it accessible to all.

How to find data:

Click [here](#)

view **measuring stations** nearby you

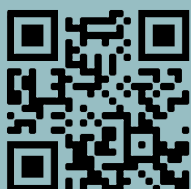

Visualize sea level, waves, temperature, wind,...
